AKASH SETHI

Software Developer (9+ years of professional experience)

📞 +1(647) 981-4955　　@ akashsethiwork@gmail.com　　🔗 https://akashsethi.com/

SUMMARY

- Diligent software engineer with +9 years of experience building highly scalable cloud-native applications running on the JVM and Node.js.
- Proficient with Java, Kotlin, Spring Boot, Spring, Node.js, ES6, and application deployment on the cloud (AWS, Azure, PCF).
- Proficient in frontend frameworks such as, React and Angular with a strong understanding of web development best practices and design patterns.
- Exposure to the full Software Development Life Cycle (SDLC): analysis, design specification, development, performance, unit testing, documentation, and live deployments.
- Team Player with excellent focus, dedication, initiative, attention to detail, and follow-through skills.
- Cloud development experience in AWS, Azure in particular serverless architecture.
- Acquaintance to setting up automation processes using CI/CD tools like Azure Pipelines, and Jenkins.

PROFESSIONAL EXPERIENCE

Full Stack Developer

Rabobank

📅 10/2019 - 03/2023　📍 Utrecht, The Netherlands
🔗 https://www.rabobank.nl/

- Developed and managed APIs provided by Dedicated Subscription Management (DSM) tool. These APIs invoked thousands of times daily to create/update compliant resources on cloud platforms.
- Provide support to 100s of teams in different areas.
- Assisted with key design decisions in rewriting the ROP Portal as a whole. Successfully reached goals within 2 months of having feature parity, compared to the previous solution, while bringing big improvements in terms of speed and reliability (the new version of the ROP Portal almost loads instantly and is an order of magnitude faster compared to the previous implementation, which relied on an open-source CMS).
- Collaborated with designers, and project managers to design, develop, and deploy new features and enhancements, improving the overall user experience and functionality of the ROP Portal.
- Built a GraphQL service for categorizing documentation that automatically scraped from Azure Git repositories and finishes the jobs in a few seconds.
- Built the Azure DevOps CI/CD pipelines for deploying ROP Portal on CF using the Blue/Green deployment strategy with zero downtime.
- Mentored new joiners and conducted technical interviews.

Lead Engineer

HCL Technologies BV

📅 03/2018 - 09/2019　📍 The Hague, The Netherlands

- Developed and managed redemption flow for the aegon.nl and its advisor portal.
- Accountable for designing and documenting API using Swagger.
- Developed and maintained API using Apigee, Node.js and AWS serverless architecture.
- Helped API's platform team and solved some technical challenges by making reusable pipeline libraries to deploy Lambda functions for various teams.
- Developed Front-end components using Angular and integrated with APIs.
- Developed reusable components for various teams as an active member of platform teams.

TECHNICAL SKILLS

Programming Language

Java　JavaScript (ES6)

TypeScript　GraphQL　Kotlin

Groovy

Frameworks

Spring Boot　ExpressJS　Next.js

Angular　Netflix　Spring Cloud

Cloud Platform

AWS　Azure　PCF

Development & Operations

JUnit　Jest　Mocha

Azure DevOps　Agile　Git

Docker　Maven　NPM　Yarn

Splunk　Fortify　SignalFx　Jira

Confluence

IDE and utilities:

IntelliJ IDEA　Visual Studio Code

EDUCATION

Master in Computer Application(WES Evaluated)

YMCA University Of Science and Technology

📅 06/2010 - 05/2013

CERTIFICATION

AWS Certified Developer - Associate

AWS Certificate Link - 01/2023 - 01/2026

PROFESSIONAL EXPERIENCE

Lead Engineer

Hcl Technologies

📅 10/2016 - 02/2018   📍 Noida

- Offshore Lead for the team of AT&T (Cart and Checkout) with a size of more than 10 developers.
- Interacted with clients to understand the requirements along with my product owner.
- Coordinate with the team to estimate the viability of a product and active code reviewers.
- Developed REST API using Node.js and built user interfaces using React, Redux.

Senior Software Engineer

IntelliGrape Software

📅 07/2015 - 09/2016   📍 Noida

- As a full-stack developer worked in a wide variety of business applications being developed on Node.js, Angular, Grails and Groovy and Java.
- Deploy Server On-Premise with Tomcat.

Software Engineer

IntelliGrape Software

📅 08/2013 - 06/2015   📍 Noida

- As a full-stack developer worked in a wide variety of business applications being developed on Grails and Groovy and Java.

INTERESTS

💎 Photography, traveling, hiking, cycling
